October 2, 1991

The Board of Adjustment at its regular meeting held June 26, 1991, approved the application by 5 ayes and 2 nays.

The transcript in connection with this matter was received July 20, 1991, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On August 21, 1991, the City Clerk notified the applicant, the applicant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting September 4, 1991, at 1:00 P.M., in the Municipal Court, Part V, Third Floor, 31 Green Street, Newark, N.J.

At the September 4, 1991 meeting, the Municipal Council deferred action on the application until this meeting, per request of Edna Baugh, Attorney for the appellants.

On September 5, 1991, the City Clerk notified the applicant, the applicant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting October 2, 1991, at 1:00 P.M., in the Municipal Court, Part V, Third Floor, 31 Green Street, Newark, N.J.

President Tucker stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the matter of application of Rui M. Freitas, Applicant and Antonio and Deolinda Batista, Owners, under contract to permit in a second industrial district construction of a two story automobile body and fender repair and spray painting shop and with entrance conducive to a back-out maneuver; and subject to site plan approval, on premises 87-91 Lafayette Street and 15-21 Columbia Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No new testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MS. EDNA BAUGH, ATTORNEY FOR APPELLANTS, addressed the Members of the Municipal Council requesting that this variance be rejected due to on-going complaints by her clients, about the large amount of dust, fumes and noise caused by the present operation. Ms. Baugh believed that approval of this variance for the proposed expansion would be detrimental to the residents of this community.

MR. FRANK GIANTOMASI, ATTORNEY FOR APPLICANT AND OWNERS, addressed the Members of the Municipal Council requesting that the variance be granted because this expansion would increase his clients business.

Council Member Martinez stated the following:

"On June 26, 1991, the Zoning Board of Adjustment voted 5 to 2 to grant a use variance to the applicants. The variance permits construction of a two story automobile body and fender repair and spray painting shop in a Second Industrial district.

The applicants were represented by Mr. Francis J. Giantomasi, Esq.; the witness on behalf of the application was Rui Freitas. Objectors who spoke in opposition to the application were William Mikesell, Richard Friffel, Joseph Munn and Herbert Baumer.

The record made before the Board of Adjustment reveals that Mr. Antonio Batista has owned and operated an auto body and fender repair and spray painting shop at this location since 1980. The building presently consists of a one-story garage. Mr. Batista is now under contract to purchase the vacant lot next door to his shop. The applicants intend to demolish a wall in the present structure and enlarge the building which will extend into the presently vacant lot. The structural expansion is needed because of increased business. The adjacent lot has been vacant for the past 10 to 15 years and Mr. Freitas testified that unknown persons use the lot as a dump site. He further testified that the structural expansion would result in additional jobs for local people.

No evidence was put before the Board of Adjustment concerning specific structural and architectural plans because the applicant did not seek site plan approval from the Zoning Board. Mr. Giantomasi stated that his client intends to apply to the Central Planning Board for site plan approval.

One objector stated that the present operation generated a fair amount of dust and noise and causes some congestion. Another objector stated that expansion of the business would detract from the area's renaissance. An objector who lives next to the existing shop stated that fumes are emitted into the air by the spray paint operation. The final objector to speak on the record stated that he objected because it would cause neighborhood people to move and the remaining properties would be less secure.

After all testimony was presented, the Board of Adjustment adopted a resolution dated July 17, 1991 approving the application for a "D" variance (attachment A). The decision was based on certain factual findings which were embodied in the Board's resolution.

The Board of Adjustment further determined that the relief requested would not cause substantial detriment to the public good without substantially impairing the intent and purpose of the zoning plan and ordinances of the City of Newark.

Under present law, this Council, as the City's governing body, has the authority to make a de novo review of the record established before the Board of Adjustment. The governing body can reach its own decision in this matter subject only to the requirements that its findings and conclusions are supported by the record. Cerdel Construction Co. Inc. v. East Hanover, 86 N.J. 303 (1981). The Council's power is comprehensive and it may reverse, remand or affirm the final decision of the Board of Adjustment with or without the imposition of conditions.

Applying such a standard of review, the Council has reviewed the transcript of the hearings before the Board of Adjustment and makes the following determinations:

1. The applicant demonstrated special reasons for needing the use variance in that the present structure which houses the existing non-conforming use is outdated as the result of increased business. Refusal of the variance would result in undue hardship.

October 2, 1991

2. The applicant satisfied the negative criteria of the law in that the expansion will result in better control of the use of the lot and will eliminate the use of the vacant lot as a weed infested dump. Thus there will be no substantial detriment to the public good and no substantial impairment of the Zoning Ordinance or the Master Plan.

3. The expansion of the non-conforming use does not include any change in the present non-conforming use which has existed since 1980 by this applicant.

4. The factual findings found by the Zoning Board of Adjustment are also found by this body.

5. The applicant plans to submit a site plan application to the Central Planning Board. Therefore, this body does not have some data before it that ideally would allow us to consider the impact of the entire proposal on the community. For this reason certain conditions will be imposed. The applicants must:

(a) use appropriate methods to vent paint and dust through the use of necessary air filters and ventilation mechanisms;

(b) comply with all fire safety regulations;

(c) comply with all environmental regulations;

(d) build a spray painting booth in compliance with all federal, state and local requirements.

Based on the foregoing reasons and with adherence to the conditions imposed, the Municipal Council should affirm the Zoning Board's decision. The 'D' variance allowing expansion of the present non-conforming use should be granted.

A motion to defer action on the application was made by Council Member Grant, seconded by Council Member Carrino and declared adopted by President Tucker by the following votes:

MR. ZINNERFORD SMITH, CHAIRMAN, BOARD OF COMMISSIONERS, NEWARK HOUSING AUTHORITY, addressed the Members of the Municipal Council with respect to conditions at Hayes Homes Apartment Complexes.

President Tucker indicated he would like Mr. Smith to update the tenants present in the audience as to what steps are being taken by the Newark Housing Authority to rectify problems at Hayes Homes.

- 6-HC-e. MR. WILLIAM WALLACE, 105 CARNEGIE AVENUE, EAST ORANGE, NEW JERSEY** addressed the Members of the Municipal Council relative to layoffs and job title changes for black people.
- 6-HC-f. MR. FRANK HURTZ, 402 MOUNT PROSPECT AVENUE, NEWARK, NEW JERSEY** addressed the Members of the Municipal Council relative to letter and petitions he submitted relating to the Municipal Council establishing an Office for the Homeless and that it was important that the homeless be represented. He noted the Mayor could not create this office. He noted only the Municipal Council has the authority to create an office for the homeless and the Mayor could only implement the ordinance. He requested the Council to do this.
- 6-HC-g. MR. THAD KETTLES, 92 BARCLAY STREET, NEWARK, NEW JERSEY.**
Council Member Bradley indicated Mr. Thad Kettles was registered to address the Members of the Municipal Council but due to illness was unable to attend. and requested that Mr. Kettles' remarks in the form of a letter be submitted to the Clerk for distribution to each Council Member for their response.

President Tucker directed the City Clerk to have Mr. Kettles remarks inserted as part of the minutes.

My name is Mr. Thad Kettles, I reside at 32 Barclay Street, Newark, New Jersey.

I am here this evening on behalf of the Pop Warner Football League, it's players, coaches, cheerleaders, and adult volunteers.

As you may know, pop warner was established in 1985 through this governing body, and has been supported in total since then.

In 1985 the league started with 5 teams representing each of the five city wards and a total of 175 youngsters. In 1986 the league included five Cheer Leading squads to match the respective teams. This made the total number of youngsters 225.

In 1987 the league added an additional age category and included cheerleaders for these teams, the new total of participants exceeded 500 participants. In 1989 the league successfully recruited the City of Orange and Irvington for an additional four teams of players and cheerleaders, this increased the number of participants to 14 teams of players and 14 teams of cheerleaders for a total of 750 youngsters and over 150 volunteer coaches and advisors.

December 18, 1991

In 1989 the league received an invitation to the State of Pennsylvania to participate in a bowl game and since then has successfully competed in bowl games in the State of North Carolina and Miami, Florida.

My presence here tonight is not to throw a lot of statistics at you, but, to make the impression on you that in these trying fiscal times of CUTTING BACK, I and the members of this program would like to maintain this positive recreation outlet through your support and continued financial backing. Not only does pop warner represent the best in athletic endeavors, but has a mandate of academic necessity.

Your continued faith and trust in this program is needed as a foundation to assure the survival beyond the 1991 Season.

The peer relationships that have been established and the outlet that is provided can not be weighed in dollars and cents, but on those many pop warner youngsters that have graduated high school and successfully represented the City of Newark, their family and this program in post educational and athletic endeavors.

We are presently correlating all of the success stories that have yet to be told, and also those that may not. From this we will use the information as a resource tool and expound upon our participants the proper direction that Newark needs them to travel.

I thank you for your time and allowing me to speak before you..Thank You.

6-HC-h. MR. EMORY PEARCE, 105 SOUTH 7TH STREET, NEWARK, NEW JERSEY addressed the

6-HC-i. MR. AUGUST PERRY, 100 SOUTH 7TH STREET, NEWARK, NEW JERSEY.

The above citizens addressed the Members of the Municipal Council strongly opposing proposed cuts in the Police Department due to budget problems. They noted the community has just begun to see tangible results from the implementation of Police Director Celester's plan. They noted it is a time for Administration and Council to come together and solve this budget problem without the layoff of police officers. They stated Administration should look elsewhere to solve the fiscal problem, that the City needed more police protection, not less.

6-HC-j. MS. ADRIANNE HARPER, 57 WOODBINE AVENUE, NEWARK, NEW JERSEY.

6-HC-k. MS. LORRAINE GREGORY, 55 MANOR DRIVE, NEWARK, NEW JERSEY.

The above citizens addressed the Members of the Municipal Council strongly opposing the closing of the Mount Vernon School branch of the Newark library. They noted the City of Newark is proposing to close libraries at a time when programs throughout the nation are encouraging children to read. This branch, affiliated with the school, is one of the less expensive libraries in Newark because it is not free-standing and is an extremely important part of education. Area children use this library and all its resources. Newark has some of the lowest reading scores in the State. Children do homework in library and are supported by the staff. A list of signed petitions was submitted.

A lengthy discussion was held by the Members of the Municipal Council and it was the consensus of opinion that the Municipal Council would endeavor to do everything possible to keep these library branches operative.

6-HC-l. MR. ARCHIE WILLIAMS, 105 SOUTH 10TH STREET, NEWARK, NEW JERSEY addressed the Members of the Municipal Council opposing the reduction in the Newark Police Department. The City searched all over the country to find a competent police director and now that he is here and doing a good job, the City lays off police officers.

6-HC-m.

MR. WILLIAM CHAPPEL, 73 JAMES STREET, NEWARK, NEW JERSEY addressed the Members of the Municipal Council relative to budget cuts especially in the Police Department. He noted when services are cut back, people move out of the city which then reflects on the budget. He noted his tenant is moving out of the city due to being mugged and her car being stolen. He felt he could not pass along a 17% rent increase to his tenants. His home looks out on city-owned property, off the tax rolls since mid 1970's, blighted and vacated by this council. He noted that he was shocked to see that Resolution 7-R-c on today's agenda, for P.S.A. Urban Renewal was being considered to grant a period of extension of one year to comply with terms of tax abatement granted May 27, 1986. He noted these people have been sitting on this land for years and he was shocked to see this farce continued. He said he can testify this developer was to appear in court, and neither he or his attorney did so. The attorney from the City and from the Housing Authority appeared and the Judge threw the case out of Court. He opined that every courtesy has been given to these people.

A lengthy discussion was held by Members of the Council.

A motion to consider Resolution 7-R-c at this time was made by Council Member Harris, seconded by Council Member Grant and declared adopted by President Tucker by the following votes:

Yes: Council Members Bradley, Branch, Carrino, Grant, Harris, Martinez, Rice, Villani, President Tucker.

MR. DANIEL O'FLAHERTY, 23 REYNOLDS PLACE, NEWARK, NEW JERSEY addressed the Members of the Municipal Council relative to several matters that have not been resolved in regard to substantial amounts of money due to the City from Gateway One building, Blue Cross Building, Alling Street Building. He noted he had not received any answers submitted during the public hearing on the budget in June relative to One and Nine Associates, American Decorating and bridge payments from N.E.D.C. He opined that he could not see how the Municipal Council and the Administration could go to Trenton, taxpayers, the libraries or the police unless the Administration puts the revenue house in order first.

Council Member Rice, through the Chair, directed the City Clerk to extract questions raised by Mr. O'Flaherty

President Tucker indicated that explanations in response to these questions had been received and directed the City Clerk to forward copies of these responses to Mr. O'Flaherty.

December 18, 1991

ALMEIDA FANT, 309-311 CLINTON AVENUE, NEWARK, NEW JERSEY** addressed the Members of the Municipal Council relative to Manghen House, a fully renovated facility which could be utilized in the critical issue of housing the homeless. She noted this owner along with other vendors and other organizations submitted alternatives to housing Newark's homeless. She requested the Municipal Council to consider her proposal, together with all of the other vendors and merchants that have gone through the municipal process of obtaining a license and getting a c.o. in order to become a part of the solution of housing Newark's homeless individuals.

Council Member Branch indicated he had looked at this structure and supported the use of this building as a transitional shelter for the homeless and requested his colleagues support in this matter.

- 6-HC-p.** **MR. CHARLES CRAWFORD, 29 STRATFORD PLACE, NEWARK, NEW JERSEY** addressed the Members of the Municipal Council with respect to conditions existing at Jesse Allen Park including no lights on Avon Avenue side, at the tennis, basketball and handball courts, plus flashers in the park. December 17, 1991

TO: CITY CLERK ROBERT MARASCO
CORPORATION COUNSEL GLEN GRANT

FROM: POLICE DIRECTOR WILLIAM R. CELESTER

SUBJECT: COUNCIL COMMITTEE MEETING
RE: ADDITION OF FIFTH TOWER

1. The attached submission of Captain James Cosgrove voices the opinion of listed command and supervisory officers of the Police Department that the addition of a fifth tower along city ward designations will create difficulties for our operation due to current geographical district designations that differ, the necessity for additional personnel and equipment, computer reconfiguration along GEO base ward lines, and cost factors associated thereto.
2. One alternate suggested is the towing contract awards be allocated on a rotating basis, thereby each tower would equitably share police tows avoiding past negative experiences by the department when towers did not live up to contract agreements.
3. However, I am confident that the department can accommodate the desires of the City Administration should the proposal be approved.

ADMINISTRATIVE SUBMISSION

NEWARK, N.J.

TO: GEORGE E. DICKSCHEID, DEPUTY CHIEF #4085 DATE: DECEMBER 16, 1991
COMMANDER, AREA A PATROL BUREAU

FROM: JAMES M. COSGROVE, CAPTAIN # 4060 FILE REF : FIN 5-1
COMMANDER, NORTH DISTRICT STATION

SUBJECT: MEETING - REF: FIFTH TOWING SERVICE

Sir:

On Friday, December 13, 1991, Deputy Chief Thomas O'Reilly held a meeting to determine the impact of a proposed towing contract change. This proposal, made by Councilman Gary Harris, is to

606
December 18, 1991

change the number of towing contracts from four to five. Presently, the four towing contracts are divided along Police District boundaries (North, South East & West). Councilman Harris is proposing that the system be amended to include a fifth tower and the boundaries be along Political Wards (North, South, East, West & Central). To determine the impact this proposal would have on the Police Department, the following individual members were present:

| | |
|-----------------------------|------------------|
| Captain Robert Scelfo | - C.C.U. |
| Captain James Cosgrove | - North District |
| Acting Captain Frank Cefalu | - West District |
| Lieutenant Richard Fanning | - Robbery Squad |
| Lieutenant Charles Dughi | - Auto squad |
| Lieutenant Frank Paultz | - C.C.U. |
| Sergeant Sam Ciccone | - West District |

All of the above Department members in attendance were in agreement that the new proposal would have absolutely no benefit for the Department. The group found that the new proposal, if adopted, would require extensive changes in the Department Policies and Procedures.

Because some of the Police Districts have as many as three political wards within their boundaries, it would be necessary to program our Computer Aided Dispatch System (CAD) to identify these political boundaries. Presently, an Officer towing a vehicle simply requests the Towing Service for his District. The Officer, under the proposed change, would be required to ask the dispatcher to query the CAD System to determine what towing service is to be called. This is a procedure that is presently not needed and would be both time-consuming and burdensome on the dispatcher and the Officer. Some may think that the Officer can be trained as to the Political boundaries within the District. However, the Police District boundaries are along natural boundaries and somewhat stight and much less confusing. For this purpose, we have attached a visual description of the political boundaries.

From this visual description, it is clear that there are not enough exact coordinates and these would have to be expounded upon and entered into the CAD System. This would be both time-consuming and costly. There would be the requirement of an additional Police Officer to perform Lot Duties at the fifth lot. Administratively, there would be a need for more record keeping, i.e., Monthly, Quarterly and Annual Reports.

After viewing the political boundaries, as compared to the Police District boundaries, it can be seen that the Central Ward (which would be the newly created towing area) is not evenly divided between the four Police Districts. Rather, the majority (50%) would be taken from the West District Towing Service and subsequently that would make the West District contract unmarketable. This presently is not a cost problem but could, in the future, leave the West District or another District without a towing service and that would be a serious problem to both the City and the Department.

If the City Council proceeds with the granting of a fifth towing contract, the following recommendation is suggested: the five towing services be contacted in a rotating order for police tows. This would require a record-keeping process by the central Communications Bureau.

The following factors must be included:

| | | |
|------------------|---|--------------------|
| Equipment | - | \$ 5,000.00 |
| Personnel | - | 50,000.00 |
| Time/Cost Factor | - | 6,000.00 |
| | | <u>\$61,000.00</u> |
